These Stud Plants have been used by me for a number of years  
in the hybridization of my finest crosses.

# GENERAL INFORMATION

## and SPECIAL INSTRUCTIONS

---

### ORDERING

Orders may be placed early to reserve your selections, but shipments will be made only when weather conditions permit safe delivery to your door. Orchid plants must be guarded against chilling since they may not recover from the set-back suffered. The safe shipping period opens about April 15th and continues through October. If shipment is made to a cold area, you should plan to pick up the parcel immediately upon arrival, thus averting delays and exposure in unheated delivery trucks.

When you place your order, please mention a second choice, if you have one. NO SUBSTITUTIONS WILL BE MADE WITHOUT SPECIFIC INSTRUCTIONS FROM YOU.

PRINT OR TYPE YOUR NAME AND ADDRESS CLEARLY.

INCLUDE DEFINITE SHIPPING INSTRUCTIONS WITH ALL ORDERS.

### SHIPPING

There is no charge for packing.

We recommend using Railway Express whenever possible, especially on large orders.

Large orders shipped by Railway Express are better shipped out of pot since there is a considerable saving in charges.

The cost of shipping by Air makes it advisable to ship out of pot.

Shipments are made to all parts of the United States and many foreign countries, but we do not assume responsibility for the safe delivery of the shipment as we make sure that the order is carefully packed when it leaves our greenhouses. Therefore, we suggest that the plants are carefully examined upon arrival and if there is any indication of damage, a claim should immediately be filed with the carrier. We can only make replacements where a filed claim has been made to insure reimbursement to us.

All shipments outside of the United States are at the purchaser's risk.

All freight and express packages marked for delivery within the boundaries of continental United States will be sent COLLECT. When prepayment of postage is required, we will advance the necessary charges and a statement will be forwarded to you following shipment. Prompt reimbursement of these charges will be appreciated.

Selection is unfailingly made from the finest and largest plants available in each lot of the cross in your order; however, please remember that all crosses do not attain the same size at the same time, therefore, do not expect to receive seedlings all of equal size when ordering various crosses. They may or may not be so, and the explanation is simple: all of the tubes are not started at the same time, therefore, the period of growth varies in each case placing different crosses at an individual stage of development. Furthermore, different parent plants evidence different growing habits often reflected in the seedlings produced by these plants. Also, the amount and intensity of sunlight during any one season plays an important part in the growth of plants: seedling size from the same cross may vary somewhat from one year to another. Be assured that you will receive the best from the lot that you have ordered.

ALL SHIPMENTS ARE MADE F.O.B. ALBERTSON, L. I., NEW YORK

## INSURANCE

All packages will be insured to the full value of their contents except when they are to travel by mail. The U. S. Post Office will not accept parcels containing plants for insurance. Our careful attention will be given to adequate insulation, secure wrapping, and labeling, but further responsibility after the parcel leaves our hands must be assumed by the customer.

## PAYMENT

All orders are payable in U.S. Dollars; check, cash, or money order should accompany your order, unless previous arrangements have been made to open a credit account. When cash is used for payment, please send by Registered Mail for safe delivery.

ALL ITEMS LISTED ARE SUBJECT TO PRIOR SALE.

## Non - Warranty

I, Ralph R. Kiesewetter, of Kiesewetter Orchid Gardens, give no warranty, express or implied, as to the productivity of any of the plants sold and will not be in any way responsible for the crop. My liability in all instances is limited to the purchase price of these plants.
